NEW INTRODUCTIONS

MRS. VIRGINIA IRWIN. (George P. Barr.)

This new sport of Giant Virginia is a rose pink in color similar to Virginia Rose, but with stronger habit of growth and with large, full textured flowers double the size (actual petal count) of the old Virginia, with strong calyx and free of any tendency to splitting. Production compares favorably with principal commercial varieties grown today. It has flowered upwards of 30 blooms to a single plant the first season, and although we would not claim that figure as an average, it will serve to prove the "bread and butter" characteristics of this Quality carnation. It has received a number of awards including the N.Y.F.C. Gold Medal.

ORDER NOW FOR DECEMBER 1948 AND LATER

Light pink seedling from a cross of two unnamed varieties. The color is the loveliest delicate shade of light pink, much richer and softer than Virginia, and more nearly resembles the color of Light Pink Maytime. The flower is large and full, larger than Hercules Virginia, of greater substance, and has a most attractive form. The petals are not as deeply fringed as Virginia. The calyx rarely splits. The plant is large, bushy, clean, and a vigorous grower. The stem is sturdy and is longer than that of Virginia. The **Keeping Quality** is **Excellent**, and the variety ships perfectly.
